

EXPECTED IN 2019

Connectivity Project for the Alpine Pedal Path & Stanfield Cutoff

Stanfield Cutoff Connectivity Project
Proposed Plan view:

****NOTE:**
New parking and roadway alignment within existing roadway to be performed by others under separate contract and is not a part of this grant application.

A key project receiving more than \$1.5 million in grant funding for the estimated \$2 million project cost, is the Connectivity Project for the Alpine Pedal Path & Stanfield Cutoff (Project). The Project will use grant funding in conjunction with Measure Y funds to extend the Alpine Pedal Path with a new multi-use pedestrian and bicycle trail down the west side of Stanfield Cutoff, along Big Bear Boulevard ending at Rathbun Creek. This visionary project, currently in the design phase, is part of the larger Master Plan of Trails adopted by the city in 2014 with the goal of connecting the valley through a network of pedestrian, bicycle and equestrian trails.
