2. PUBLIC HEARING

2.1 PLANNING APPEAL 2019-078 APPEALING THE PLANNING COMMISSION APPROVAL OF MINOR SUBDIVISION 2019-030 (PARCEL MAP 19185) PERTAINING TO A 3-LOT SUBDIVISION OF 42438 MOONRIDGE ROAD IN THE SINGLE FAMILY RESIDENTIAL (R-1) ZONE

Council consideration of denying the appeal, thereby upholding the approval of the Planning Commission’s action in Resolution No. PC2019-08 approving Minor Subdivision 2019-030 (Parcel Map 19185) for the subdivision of a 1.78-acre vacant parcel into three (3) lots for single-family residential development in the Single
Family Residential (R-1-7200) zone located at 42483 Moonridge Road, APN 2328-312-29, and finding the map exempt from the California Environmental Quality Act.

Janice Etter, Senior Principal Planner, gave a presentation regarding the appeal of Minor Subdivision 2019-030, including the City Engineer’s report and staff recommendations.

Mayor Pro Tem Herrick asked about the drainage inlet leading into Moonridge Road and the possibility of installing a larger inlet to better accommodate heavier precipitation and improve drainage.

City Engineer, Robert Hearne, responded.

Councilmember Caretto asked for clarification on the meaning of a non-vehicular access easement; asked if the two property owners have been in contact with regard to using one another’s property for vehicular access.

Staff responded.

Mayor Putz asked if both the drainage easement and non-vehicular access easement was in place when the tract was developed; asked if anything has changed to the tract since the current owner came into ownership of the property; asked about the impact of the February 14th storm to both the properties.

Staff responded.

Councilmember Caretto asked who is responsible for maintaining drainage easements granted to the City and if the current drainage easement on the subject property is being properly maintained.

Mayor Pro Tem Herrick asked if staff has filmed the drainage pipe that leads to Rathbun Creek; says there are issues with inflow and infiltration and it would be nice to confirm that this drain is not connected to the sewer system.

Staff responded.

At the hour of 7:38 p.m., Mayor Putz opened the Public Hearing for comment.

Abel Sanchez, subdivision appellant: Addressed Council with his concerns of the Minor Subdivision as the new development would increase water flow on his property thus possibly causing damage.

Armen Avedian, subdivision applicant: Addressed Council stating that he had complied with all local and state regulations in relation to this project and stated that he is hopeful City Council will vote for his project to proceed as planned.

Gail Boyer: Addressed Council stating that she believes the project is well thought out and there should be no issues with drainage.
At the hour of 7:43 p.m., Mayor Putz closed the Public Hearing and brought the discussion back to Council.

Mayor Pro Tem Herrick sought clarification on the erosion control plan and the specifications of the proposed plans.

Staff responded.

Council and staff discussion regarding the current drainage master plan and inlet system; Councilmember Caretto asked if there is a plan to improve the drainage on Moonridge Road in the future; John Harris, Director of Development Services, assured Council that the drainage in the Moonridge Corridor will be looked at when the Moonridge Roundabout Project breaks ground.

Mayor Putz sought clarification on the proposed drainage system and additional catch basins and asked for staff to confirm that the additional drainage pits would not contribute to the natural drainage thus negatively affecting neighboring properties, but actually improve the drainage.

Mayor Pro Tem Herrick asked about the specifics of the construction plans and asked if a surplus of water seen in the area is due to a lack of maintaining the inlets.

Staff responded.

Mayor Putz commented that the proposed development on the Avedian property does not appear to impact the Sanchez property in a negative way due to the elevation differences; and said there appears to be an opportunity for the City to better mitigate the drainage in the area.

Mayor Pro Tem Herrick echoed Mayor Putz’s comment regarding the City’s future opportunity to improve drainage issues in Moonridge.

Motion by Councilmember Caretto, seconded by Mayor Pro Tem Herrick, to approve staff’s recommendation by approving the following resolution entitled:

**RESOLUTION NO. 2019-27**

Said motion was approved by the following vote:

AYES: Herrick, Caretto, Jackowski, Putz
ANOES: None
ABSTAIN: None
EXCUSED: Jahn

3. **DISCUSSION & ACTION ITEMS**

3.1 **VILLAGE WAYFINDING SIGN PROJECT UPDATE**

Council consideration of receiving and filing a report regarding the Village Wayfinding Project.

John Harris, Director of Development Services, gave an update regarding the Village Wayfinding Project and presented to Council examples of what the wayfinding signs would look like with respect to the size and design.

Councilmember Caretto inquired about the actual size of all the signs around the City; and asked about the possibility of including signs that identify neighborhoods.

Jeff Mathieu, City Manager, responded.

Councilmember Caretto explained what he likes about the signs including the enlarged international symbols, the hybrid design of the numbering and naming lot system and even the inclusion of a snow-cap on top of the mountain.

John Harris noted that the signs will be produced with reflective lettering so all motorists will be able to read the signs at night and demonstrated that the City’s logo will be on the back of the wayfinding signs as well.

Councilmember Jackowski asked how many different sizes of signs will be produced, excluding the half-round signs.

Staff responded.

Council and staff discussion regarding the placement of signs in relation to direction of traffic.

Councilmember Jackowski commended staff on a job well done; believes the signs are large enough to be seen while driving.

Discussion regarding the posts the signs will rest on, the materials the signs are made out of including the life span of the signs in respect to fading.

Council and staff discussion regarding revisiting a City-wide wayfinding signage project and the opportunity of rebranding the City including neighborhood identifiers and the revitalization of the Moonridge Corridor.
Mayor Putz thanked staff for accommodating all of Council’s suggestions and input with the design of the signs; believes the signs to be a good step in the right direction.

Report was received and filed. No formal action was taken.

3.2 AUTHORIZATION TO ADVERTISE – ADA COMPLIANCE REMODEL FOR PERFORMING ARTS/CIVIC CENTER MAIN FLOOR RESTROOMS

Council consideration of finding the project categorically exempt from the requirements of the California Environmental Quality Act (CEQA), pursuant to Section 15301(a) of the CEQA Guidelines and authorizing staff to file a Notice of Exemption; and authorizing staff to advertise and solicit bids from qualified contractors to perform the ADA compliance remodel for the Performing Arts/Civic Center main floor restrooms.

Phil Mosley, Director of Community Services, gave a presentation of the proposed configuration changes to the Performing Arts/Civic Center restrooms in order to obtain ADA compliance.

Mayor Pro Tem Herrick asked what the purpose of the doors leading into the vestibule are for; indicated that the doors may impede the flow of people attempting to get into the restrooms during heavily attended PAC events.

Staff responded.

Jeff Mathieu, City Manager, suggested that we can alleviate the confusion of the restrooms by enhancing signage and then with that, the door into the vestibule can be eliminated.

Mayor Putz added that by eliminating the door it may have a positive effect on environmental and hygiene issues, however, wanted to ensure there will still be enough privacy.

Jeff Mathieu assured Council additional, enlarged signage can be included without clutter as it seems Council’s preference is to eliminate the doors to the vestibules.

Councilmember Caretto echoed Mayor Putz’s concerns regarding the level of privacy; wants to ensure there will be adequate privacy

Staff responded.

Council and staff discussion regarding the pros and cons of eliminating one sink and toilet in both the men’s and women’s restrooms; staff assured Council that we will still be in compliance in regards to the number of fixtures in comparison to the maximum persons allowed in the building.

Mayor Putz asked what staff’s plan is to accommodate the public with restroom facilities while demolition and construction are occurring.
City Manager and staff asserted that construction will take place in January; signage will be placed around the building in an effort to direct people to other restrooms in the Civic Center; and the PAC will be dark in the month of January; commented on the importance and significance of the ADA compliant water closets.

Councilmember Jackowski inquired about the restrooms in the PAC/theater in regards to ADA compliance.

City Manager responded.

Councilmember Caretto inquired about whether or not we are able to designate the restrooms by gender; asked for a cost estimate and if the project will be covered entirely by CDBG awarded funds.

City Manager responded.

Motion made by Councilmember Caretto, seconded by Mayor Pro Tem Herrick, to approve staff’s recommendation and find the project categorically exempt from the requirements of the California Environmental Quality Act (CEQA), pursuant to Section 15301(a) of the CEQA Guidelines and authorize staff to file a Notice of Exemption; and to authorize staff to advertise and solicit bids from qualified contractors to perform the ADA compliance remodel for the Performing Arts/Civic Center main floor restrooms.

Said motion was approved by the following vote:

AYES: Herrick, Jackowski, Caretto, Putz
ANOES: None
ABSTAIN: None
EXCUSED: Jahn
