Councilmember Jahn asked if the motion to reject all bids passes then Romans Construction should not be prohibited for re-bidding on the project.

3.2 VILLAGE WAYFINDING SIGN PROJECT UPDATE

Council consideration and discussion regarding receiving a presentation and providing direction as desired pertaining to the Village Wayfinding Sign Project.

John Harris, Director of Development Services, gave a brief presentation regarding the Wayfinding Sign Project and discussed various wording and design options proposed by City Council and the Planning Commission.

Councilmember Jahn suggested placing the parking and bathroom symbols on top of one another.

Staff responded.

Councilmember Caretto inquired about the material the posts will be made of; suggested steel posts.

Staff responded and continued the presentation by reviewing alternative sign designs and discussed the upcoming potential steps in the process.
Councilmember Caretto inquired if staff’s plan is to replace existing signs around the City to match the signs being proposed for the Village or if they choose to not alter the current design of wayfinding signs not located in the Village; inquired about staff’s rationale of recommending to switch the parking lots names to a numerical system rather than the current street name identification system; suggested that all city parking lots be labeled.

Mayor Pro Tem Herrick addressed his concerns on potential color schemes as certain colors will not be as vibrant when compared to our natural environments; stated he is in favor of brighter colors for the signs.

Staff responded.

Bynette Mote, Big Bear Lake: Addressed Council providing several examples for alternative wayfinding sign designs; stated she is in favor of all signs being consistent throughout the City but is not in favor of changing the parking lot names from street names to a numbering system; recommended hiring a wayfinding company to design and construct all signs.

Councilmember Caretto suggested rewording the Village wayfinding signs by not featuring the word “Village”.

Staff responded.

Mayor Putz commented on how proud he is of the work that has been accomplished in the Village, but believes the signs to be out of place; proposed the City should hire a wayfinding company; believes the parking lots names as they are now will be easier for visitors to locate and commented on the space issues on the signs with respect to keeping the names of the parking lots the same.

Mayor Pro Tem Herrick stated that the simpler the design, the better; believes the logical choice is to change the parking lots from street names to a numbering system; would like the signs to stand out and not blend into our natural environment.

Councilmember Caretto asked about the price of hiring a wayfinding sign consultant or company to complete a City-wide sign review and what the budget allows for new wayfinding signs and a monument entrance sign; inquired about the current budget allowed for this project.

Mayor Putz inquired about the number of wayfinding signs there are currently in the City.

Staff responded.

Councilmember Jahn does not believe hiring a wayfinding company is economically feasible and believes a company is not needed for sign placement.
Discussion regarding the vision and aesthetic of the Moonridge Corridor and how the current design concepts will coordinate with the proposed signs.

Jeff Mathieu, City Manager, suggested that Council go forth with a hybrid decision by authorizing the approval of staff’s recommendation of moving forward with the manufacturing of signs that are currently missing in the Village but to also consult with a wayfinding design consultant that will look at the City holistically; suggested involving the community in the process to gain further insight.

Motion by Councilmember Caretto, seconded by Councilmember Jahn, to move forward with the design plan proposed by staff, adding identification signs to the two additional parking lots utilized for public parking, modify the signs to indicate a parking lot numbering system and the current street names for the parking lots.

Mayor Putz questioned if Councilmember Caretto would be willing to consider amending his motion by including the deletion of the current graphic and making all signs one solid color as he thinks the graphic is distracting and doesn’t fit in with our environment.

Councilmember Caretto accepted the amendment suggested by Mayor Putz.

With the amendment approved, Councilmember Jahn recanted his approval of the motion by withdrawing his second.

Motion by Mayor Pro Tem Herrick, seconded by Councilmember Jahn, to leave the mountain design and add a white cap on it to indicate snow, to enlarge the bathroom and parking international symbols by changing the parking lot names to a numbering system and highlighting the words of Village parking only once rather than repeating it on each panel.

Discussion regarding eliminating the verbiage of “Village parking” entirely.

Councilmember Caretto questioned if Mayor Pro Tem Herrick would be willing to consider amending his motion to include the addition of two more signs identifying the lot by the Community Church and behind the Dynasty restaurant.

Mayor Pro Tem Herrick accepted the amendment suggested by Councilmember Caretto.

Councilmember Jahn inquired about overflow parking lots.

City Manager responded.

Councilmember Jackowski stated he believes we should continue with staff’s recommendation and then revisit the wayfinding sign project on a City-wide basis by consulting a professional.

Said motion was approved by the following vote:
City Manager suggested to retain a consultant in order to explore all the design possibilities and to arrange a committee including City Council and Planning Commission members and local citizens for a City-wide review of all wayfinding signs within City limits.

Councilmember Jahn asked if neighborhood identification would be included in the project.

Councilmember Caretto inquired about the limitations in respect to the financials.

Mayor Putz asked for clarification on the City Manager’s recommendation of a City- wide wayfinding sign holistic approach and indicated that it is his understanding that the project would include the Village, the Moonridge Corridor, Trailheads, City parks, and City entrance monument signs.

City Manager suggested staff will contact consulting design firms to seek pricing and to explore the scope and benefits of a City-wide wayfinding sign project; assured Council that staff will bring back the item at a future meeting to seek further direction.

A motion was made by Councilmember Caretto, seconded by Mayor Pro Tem Herrick, directing staff to move forward with the City Manager’s suggestion.

Said motion was approved by the following vote:

AYES: Jackowski, Jahn, Herrick, Caretto, Putz
